- > Royal Air Force
- > Royal Navy
- > Royal Netherlands Air Force
- > Royal Norwegian Air Force
- > SERCO
- > SES
- > Thales
- > UK Emergency Services
- > UK Ministry of Defence

ADDED VALUE

SELEX Systems Integration understands that organisations invest in technology as an enabler to deliver business benefits and to protect their operations. Our capabilities and experience are engaged by clients to achieve these twin goals, by:

- > Delivering new business capability through cost-efficient deployment of technology
- > Consolidating operations to increase span of control and decrease operating expenditure
- > Changing concept of operation from tactical control to strategic service management
- > Seamlessly integrating new 'capability-enabling' technology into a legacy environment
- > Providing combined contingency and training facilities for 24/7 safety-critical services
- > Protecting business-critical assets with effective security and resilience measures
- > Improving human performance and organisational development

**Managing complexity
Delivering success**

ABOUT SELEX SYSTEMS INTEGRATION

SELEX Systems Integration is a dedicated Prime Contracting and Systems Integration business. We manage the delivery of technology investment programmes in complex operational and safety-critical environments.

Our clients trust us to deliver their mission-critical investments, because of our track record of success. This is rooted in a deep understanding of our clients' complex domains and a proven ability to integrate the most appropriate products and systems, to satisfy the needs of both the client and their regulatory environment. Our approach and commitment to each client is to deliver the business benefit their investment was intended to achieve.

SELEX Systems Integration has an excellent pedigree, derived from 50 years' experience within the Security & Resilience, Defence, Aerospace and Critical National Infrastructure domains. We are backed by Finmeccanica, one of the world's largest technology companies, with a turnover of more than €15 billion and 73,000 employees worldwide.

Managing complexity. Delivering success.

SELEX Systems Integration Ltd is a subsidiary of SELEX Sistemi Integrati SpA.

DELIVERING SOLUTIONS

Our strong track record with clients has been based on the successful delivery of integrated solutions to meet their mission-critical challenges, these include:

- > Network-enabled solutions
- > Robust command and control centres
- > Secure and resilient infrastructures
- > High-value asset integration
- > Through-life training
- > Operational support services
- > Bespoke system development

CORE CAPABILITIES

To ensure market-leading credibility as a dedicated Prime Contractor and System Integrator, SELEX Systems Integration has invested heavily in developing world-class capabilities in:

- > Change management
- > Programme management
- > Enterprise architecture
- > Systems engineering
- > Supply chain management
- > Human performance improvement
- > Service management

UNIQUE APPROACH

Our clients tell us that we are differentiated from other companies, particularly manufacturers of equipment and systems, because of our unique approach, which includes:

- > Commitment to business outcomes
- > Independence of solution design
- > Depth of client domain knowledge
- > Breadth of subject matter expertise
- > Pragmatic, flexible culture
- > Highly dedicated workforce
- > Substantial technical and financial backing
